

# Workshop LTC-2021

## Social Innovation in Long-Term Care through Digitalization

Ancona, Italy, November 2-4, 2021

<https://uc-lab.in.htwg-konstanz.de/news/532-ltc2021.html>

### Objective

One of the problems that during the COVID-19 pandemic must be faced is the reorganization of long term care.

The international workshop aims to develop social innovation in long-term care (LTC) through digitalization. In a three-day event, individual solutions will be examined and developed. The participants will present their process innovations regarding LTC (inventory) and then compare them. Digital social innovation roadmaps will be derived from individual definitions. Furthermore, innovative approaches will be elaborated in cross-national working groups and with the involvement of young scientists. Subsequently, individual concepts for traceable process evaluation and sustainability will be discussed.

### Program Committee

- M.Conti, Università Politecnica delle Marche, Ancona, IT
- Natividad Martínez Madrid, Reutlingen Univ., Germany
- R. Seepold, HTWG, Konstanz, Germany

### Technical Program Committee

- A. Brito, Univ. Federal da Paraíba, João Pessoa, Brazil
- M.Conti, Università Politecnica delle Marche, Ancona, IT
- L. Fanucci, Univ. of Pisa, IT
- V. Frasca, Intel Mobile Communications, Neubiberg, Germany
- M. Grammatikakis, Hellenic Mediterranean University, Crete, GR
- N. Martínez Madrid, Reutlingen University, Germany
- P. Mihova, New Bulgarian University, Bulgaria
- S.Orcioni, Università Politecnica delle Marche, Ancona, IT
- Y. Orlov, Sechenov First Moscow State Medical University, Russian Federation
- G. Palumbo, Univ. of Catania, IT
- P. Friedrich, HS Kempten, Germany.
- L. Pieralisi, ARM, UK
- M. Radetzki, Univ. of Stuttgart, Germany
- S. Saponara, Univ. of Pisa, IT
- R. Seepold, HTWG, Konstanz, Germany
- E. Zanaj, Polytechnic University of Tirana, Albania

Organized by:

Hochschule Konstanz  
University of Applied Sciences

UNIVERSITÀ  
POLITECNICA  
DELLE MARCHE

Sponsored by:

Deutscher Akademischer Austausch Dienst  
German Academic Exchange Service

### Focus Topics

The workshop will focus on LTC relevant approaches with special emphasis on the following hot topics

- Comparison of LTC processes, exchange and networking
- Defining digital social innovation roadmaps, finding problem-oriented innovative solutions
- Concepts for traceable process evaluation and sustainability

### Call for papers

Contributions must be related to the focus topics and address one of the following areas:

- ICT for Long Term Care
- Evidence-based data acquisition and processing
- Knowledge-transfer concepts
- Citizen-centered health platforms
- Cross-border region concepts and cooperation
- Digital participation
- Cultural and ethical challenges

The working language of the conference is English. Authors are invited to submit new original research papers. All submitted papers will be peer-reviewed.

Details on

<https://uc-lab.in.htwg-konstanz.de/news/532-ltc2021.html>

Submission Deadline: **September 22, 2021**

Notification of Acceptance: **October 13, 2021**

Paper submission via EasyChair:

<https://easychair.org/my/conference?conf=ltc2021#>

It is planned to edit a Lecture Notes in Electrical Engineering (LNEE) book after both events have taken place. Accepted contributions will be invited to contribute to the LNEE project with an extended version of the paper.
